

# LUQMANUL HAKIM BIN MAZLAN

Computer Science Graduate | Graphics and Multimedia Software

Selangor, Malaysia

luqmanulhakimmazlan@gmail.com | 011-11377892 | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

Computer Science graduate specializing in Graphics Software and Multimedia with experience in software engineering, full-stack development, mobile application development, and interactive application development. Skilled in developing web, mobile, and Unity-based applications using technologies including C#, PHP, JavaScript/TypeScript, React, Laravel, Flutter, Firebase, and Docker. Experienced in applying software development practices, database integration, and user-centered design principles to create functional and engaging digital solutions. Seeking opportunities as a Software Engineer, Full Stack Developer, or Unity Developer.

## EDUCATION

### Universiti Teknologi Malaysia (UTM)

2022 – 2026

Bachelor of Computer Science (Graphics Software and Multimedia)

CGPA: 3.40 | Expected Graduation: 2026

#### Relevant Coursework

- Software Engineering
- Database Systems
- Data Structures and Algorithms
- Object-Oriented Programming
- Computer Graphics

## INTERNSHIP EXPERIENCE

### Programmer Intern

September 2025 – February 2026

Zanko | Setia Tropika, Johor

- Assisted Software Analysts in testing developed system by modules and use cases.
- Developed a CRUD-based web application using CodeIgniter 4, PHP, MySQL, and Docker as part of an assigned software development project.
- Configured and utilized Docker to create a consistent development environment for application development and testing.
- Implemented backend functionalities including database operations, routing, and application logic using CodeIgniter 4.
- Prepared technical presentation materials and conducted internal knowledge-sharing sessions on emerging technologies including Firebase AI and Agentic AI.

## PROJECT EXPERIENCE

### Adaptive User Interface Design for Stroke Order Learning in Japanese Using Rule-Based AI

Final Year Project

- Designed and developed an adaptive learning interface to support Japanese stroke order learning among non-native learners.
- Implemented rule-based adaptation using IF-THEN logic to dynamically modify feedback and interaction behaviour based on learner performance.
- Developed interactive stroke learning features including stroke guidance, feedback mechanisms, and learning performance tracking.
- Conducted usability evaluation using System Usability Scale (SUS), User Engagement Scale Short Form (UES-SF), and NASA-TLX.
- Analyzed user performance through task completion time, stroke error frequency, hint usage, and usability feedback.

## Full-Stack Venue Management System

*Technologies: Laravel, React, TypeScript, Inertia.js, SQLite*

- Developed a full-stack web application for venue management and booking processes.
- Implemented CRUD functionalities, database operations, and user interface components.
- Designed responsive user interfaces to improve accessibility and user interaction.
- Applied software engineering practices throughout system analysis, design, development, and testing phases.

## Multiplayer Museum Metaverse Application

*Technologies: Unity, C#, Photon PUN, Firebase, MediaPipe*

- Developed an interactive multiplayer museum environment using Unity.
- Integrated Photon networking to support real-time multiplayer sessions.
- Implemented gesture-based interaction using MediaPipe hand tracking.
- Integrated Firebase services for data management and leaderboard functionality.

## TECHNICAL SKILLS

---

### Programming Languages

C#, Java, JavaScript, TypeScript, PHP, Dart, SQL

### Frameworks & Technologies

Unity, React, Laravel, CodeIgniter 4, Flutter, Angular, Firebase, Docker

### Development Tools

Git / GitHub, Visual Studio, Android Studio, Figma

### Areas of Interest

Full-Stack Development, Mobile Application Development, Game Development, Interactive Applications

## LEADERSHIP EXPERIENCE

---

### University Event Leadership Roles

- Led and coordinated university-level events involving planning, team management, logistics, and execution.
- Managed collaboration between multiple committees to ensure successful event delivery.
- Developed leadership, communication, and problem-solving skills through large-scale event coordination.

## LANGUAGES

---

Malay — Native

English — Professional Working Proficiency
